RANDOM in the beginning but final 8 participants will be paired by **LADDER** system till final round

King of the Islands 8.50 index

Class rules 2026

CLASS DESCRIPTION: King of the Islands 8.50 bike is open to all bikes. King of the Islands 8.50 Bike was dubbed for the 8.50 index, and the class is open to various combinations and several different size riders

FORMAT: Category is a 1/4-mile 8.50 Index class run on a .400 pro tree (heads up 8.50 breakout). To qualify you must make a Qualify run below 8.90 E.T., when there are 2 qualifying runs available.

PAIRINGS: This class will be paired randomly in the staging lanes until we get down to 16 bikes or less and then the class will place on a sportsman ladder based on reaction time from the previous round. If there are 17 or more bikes in first round the bye run will go to the #1 qualifier (based on closest E.T. to 8.50 or up) if there is an odd number of bikes. If there are 16 or less bikes entered in Round #1, the class will be placed on a ladder based off their qualifying E.T.

RANDOM in the beginning but final 8 participants will be paired by **LADDER** system till final round

POINTS: *This class is a no points class.*

GENERAL: A rider may only run one bike in this class.

BRAKES: Front and rear brakes are mandatory and must be in safe operating condition.

CHAIN GUARDS: Chain guards are required on all entries.

LIGHTS: All motorcycles must have a functional taillight or aftermarket taillight.

TIRES: DOT drag radials (semi slick) tires, DOT slicks (round slick) Flat slicks are permitted.

GROUND CLEARANCE: Static ground clearance will be taken with rider fully suited in leathers and helmet seated on bike, hands on handlebars, and feet forward with heels only contacting the ground. The motorcycle must have a minimum of 2" ground clearance.

GENERAL SAFETY: All riders must have a SNELL 95 or higher full-face helmet, shoes above the ankle, leather gloves, a leather jacket and leather pants are required to be zipped together. Nylons or textile jackets and pants are not permitted, even if they have pads. All jackets and pants must be made of 100% leather.

Qualifying by Reaction Time

Ladder

UPHOLSTERY: RESTARTS After the initial start-up, one chance will be given to restart the car within a reasonable time at the starter's discretion. The crew person should keep the starter close by in case it is needed. Push starting any vehicle is prohibited.

STAGING: Once an entry reaches the front of the staging lanes for a run, it must be prepared to fire and race. In order to be a legitimate race winner, the competitor must start and self-stage the vehicle under applied power. This rule also applies to single runs. All competitors will be given reasonable time to refire their entry, provided it is not pre-staged. The amount of reasonable time is determined by the starter. Crew members are prohibited from touching the vehicle after it is pre-staged. If a crew member touches the vehicle once it is pre-staged, the entry may be disqualified.

"Courtesy Staging" is mandatory at all **Junior Dragster events**. If a competitor unintentionally lights both bulbs before the opponent stages, the starter will give the order to pull the vehicle back and allow it to re-stage. This is considered a "pullback" and will only be permitted one time. The starter has full control and is the only one who can give the order to pull back the car whether it is pre-staged, staged, or over-staged.

DEEP STAGING: Is allowed. Once the entry is pre-staged, crew members must be behind the vehicle and out of both competitors' view.

THE FINAL STAGING MOTION, USING APPLIED POWER, MUST BE IN A FORWARD MOTION GOING FROM PRE-STAGE TO STAGE.
